Re: Notice of File Closure, Park Valley II, S/003/009, Box Elder County, Utah

Dear Mr. Bown:

Thank you for submitting your annual reports and permit fees for your mine sites located in Box Elder County, Utah, which were received February 1, and March 3, 1999 respectively. Your report for Park Valley II stated that your state mineral lease (#ML 46137) had been dropped for this site and this should be removed from the "report list" in the future. Along with payment of the permit fees, you requested that the Park Valley II site be inspected to close the file, thus the fee for this project was not paid.

We checked with School and Institutional Trust Lands Administration (SITLA) and they indicated that your lease was canceled in 1997 and you would need to re-apply for the lease before you could begin any mining operations. SITLA concurs with the closing of this file. Therefore, the Division hereby closes your Park Valley II permit and retires this file (S/003/009). You will not have to pay the \$100.00 permit fee for this project.

If you gain access to this site at some later point in time, you will have to submit a new notice of intention to the appropriate agency, pay the Division fees, and receive written approval(s) prior to commencing any activities.

As always, please don't hesitate to call me if you have any questions regarding this letter.

Sincerely,

Lynn Kunzler  
Senior Reclamation Specialist
